REVENUE PLN 397.5 MILLION
EBITDA PLN (46.7) MILLION
NET LOSS PLN 39.8 MILLION
OPERATING CASH FLOW PLN (19.3) MILLION

Agora S.A. ("the Company", "Agora") is a parent company of the Agora S.A. Capital Group ("the Agora Group", "the Group").

The presentation according to operating segments, in accordance with IFRS 8 Operating segments, is prepared at the Agora Group level in accordance with the management approach and is presented in "The Management Discussion and Analysis for the year 2023 to the consolidated financial statements" and in "Consolidated financial statements as at December 31, 2023 and for the year ended December 31, 2023".

To understand the core business activities of the Agora Group, one should read "The Management Discussion and Analysis to the consolidated financial statements for the year ended December 31, 2023".

Unless indicated otherwise, all data presented herein represent the period of 2023, while comparisons refer to 2022.

I. IMPORTANT EVENTS AND FACTORS WHICH INFLUENCE THE FINANCIALS OF THE COMPANY

- Revenues of Agora S.A. ("Agora", "the Company") amounted to PLN 397.5 million and increased by 1.1%. The most significant factor affecting the Company's revenues was the 9.1% higher proceeds from other sales, which amounted to PLN 52.8 million. The second factor that had a significant impact on the Company's revenues was the 12.8% higher proceeds from the sale of printing services, which amounted to PLN 37.0 million. Proceeds from the sale of publishing houses increased by 2.0% to PLN 140.1 million. This was due to higher proceeds from the sale of Agora Publishing House and the digital version of Gazeta Wyborcza. Proceeds from the sale of advertising services amounted to PLN 167.6 million, down 4.1% - a result of lower advertising revenues generated by the Internet Division, the Digital and Printed Press segment and Agora Publishing House.
- The Company's net operating expenses amounted to PLN 472.4 million and were 2.6% higher than in 2022. The largest increase - by 9.8% to PLN 108.7 million - took place in the line item under third-party services and covered all of the Company's segments. The cost of salaries and employee benefits increased by 3.1% to PLN 210.0 million. Their increase was evident in all of the Company's segments with the exception of Digital and Printed Press, where fixed wages decreased as a result of the 2022 restructuring. Costs of materials and energy consumption and value of goods and materials sold increased by 3.1% to PLN 66.5 million. This was mainly the result of the market-driven increase in energy prices seen in the supporting divisions, as well as higher costs incurred by Agora Publishing related to higher sales of digital products from other publishers. Depreciation and amortization and representation and advertising expenses were lower than a year earlier. The former were lower in all segments except supporting divisions - higher costs in Agora's IT division, the latter were lower in the Digital and Print Press segment and Agora Publishing, and higher in the Internet division. The comparability of operating expenses was also affected by one-time events recorded in 2023 and 2022. In 2023, it was the

write-down of the Tychy property charging PLN 2.1 million to the result of the supporting divisions, and in 2022 it was costs related to the restructuring of the Digital and Printed Press segment of PLN 3.4 million.

- ▶ The company recorded a loss at the EBITDA level of PLN 46.7 million in 2023. The loss at the EBIT level increased to PLN 74.9 million. The company's net loss stood at PLN 39.8 million.
- ▶ As at 31 December 2023, the Company's financial assets amounted to 13.6 million, which included cash and cash equivalents (cash, bank accounts and bank deposits).

II. EXTERNAL AND INTERNAL FACTORS IMPORTANT FOR THE DEVELOPMENT OF THE COMPANY

1. EXTERNAL FACTORS

1.1 Advertising market [1]

According to Agora S.A.'s estimates. ("Company", "Agora"), based on available data sources, in 2023, the value of total advertising spending in Poland amounted to about PLN 12.0 billion, increasing by almost 6.5% compared to 2022. During this period, advertisers increased their advertising spending in almost all market segments. There was a slight decrease in advertising spending in the press: in dailies and in the magazine segment. The largest growth rate was in cinema and outdoor advertising in 2023. Smaller, though solid single-digit increases were recorded in this period by internet advertising and radio advertising. Data on estimates of the dynamics of changes in the value of advertising expenditures by media are presented in the table below:

Tab.1

Total advertising expenditure	Television	Internet	Radio	Outdoor	Magazines	Dailies	Cinema
6.5%	3.5%	8.5%	5.5%	17.0%	(3.5%)	(4.0%)	21.5%

The share of particular media segment in total advertising expenditure in 2023 is presented in the table below:

Tab.2

Share in total advertising spendings	Television	Internet	Radio	Outdoor	Magazines	Dailies	Cinema
100.0%	39.0%	44.0%	7.0%	5.5%	2.0%	1.0%	1.5%

1.2 Copy sales of dailies [3]

In the fourth quarter of 2023, sales of editions for paid dailies in Poland (controlled by PBC) declined by 11.1%, and for all of 2023, the decline was 12.6% compared to the same periods in 2022. In both periods, the largest declines occurred in the regional dailies segment.

2. INTERNAL FACTORS

2.1 Revenue

Agora S.A.'s revenues amounted to PLN 397.5 million, up 1.1%.

The most significant factor affecting the Company's revenue was the 9.1% higher **revenue from other sales**, which amounted to PLN 52.8 million. This was mainly the result of higher revenues of the Digital and Printed Press segment, higher revenues of the supporting divisions and the Agora Publishing House, with lower revenues of the Gazeta.pl division.

The second factor that had a significant impact on the Company's revenues was the 12.8% higher income from **sales of printing services**, which amounted to PLN 37.0 million. The above increase was due to higher prices for coldset technology customers, mainly local governments.

Revenue from the copy sales increased by 2.0% to PLN 140.1 million. This is a result of higher revenues from the sale of Agora Publishing House and the digital version of Gazeta Wyborcza. The number of active paid digital subscriptions to Gazeta Wyborcza at the end of December 2023 exceeded 303.3 thousand, down 0.1% from the same period in 2022.

Advertising revenues amounted to PLN 167.6 million and decreased by 4.1% - mainly due to lower advertising revenues recorded in the Internet Division and in the Digital and Printed Press segments. Lower advertising revenues were also visible in the Agora Publishing House.

2.2. Operation costs

In 2023, **the net operating costs** of the Company amounted to PLN 472.4 million and were higher by 2.6% than in 2022.

Costs of external services increased by 9.8% to PLN 108.7 million in 2023. They were higher in all segments of the Company. The largest increase was recorded by the Internet Division.

The staff costs increased by 3.1% to PLN 210.0 million. The costs of bonuses and rewards and incentive pay increased most sharply (high provisions set up in December 2023). Non-personnel costs and fixed salaries were also higher than a year earlier, while variable salaries were lower. The increase in salaries and employee benefits took place in all of the Company's segments with the exception of the Digital and Printed Press segment, where fixed salaries fell significantly as a result of the 2022 restructuring.

The Company's headcount as at the end of 2023 amounted to 1,269 full-time employees and decreased by 69 FTEs - this is a result of the restructuring carried out last year in the Digital and Printed Press segment.

Various incentive plans are active in the Company (e.g. cash incentive plans, incentive systems in sales departments, incentive plans for members of the Management Board and key managers, etc.), the costs of which are charged to the staff costs item.

The costs of materials and energy consumed and the value of goods and materials sold amounted to PLN 66.5 million, increased by 3.1%. This is mainly due to the market-driven increase in energy prices seen in the supporting divisions and higher costs incurred by Agora Publishing related to higher sales of other publishers' digital products.

The Company's **marketing and promotion costs** stood at 2023 PLN 37.8 million and decreased by 7.1%. This was attributable to lower representation and advertising costs in the Digital and Printed Press segment and Agora Publishing. Higher costs were incurred by the Internet Division.

Depreciation costs decreased by 15.5% and amounted to PLN 26.1 million - the result of a decrease in costs for all segments except support divisions - higher costs in Agora's IT division.

3. PROSPECTS

According to available macroeconomic forecasts, the first quarter and the subsequent quarters of 2024 will bring a higher economic growth rate in Poland than in the Western European countries, declining inflation and slow stabilisation in the prices of energy raw materials, food, goods and services. The development of the economic situation in Poland in the subsequent periods will also be characterised by high uncertainty due to the further course of the armed conflict in Ukraine and its geopolitical consequences, among other factors. An important factor affecting the Agora Group is also the wage pressure and the increase in minimum wage in 2024. From 1 January 2024, the minimum gross remuneration for work increased from the current PLN 3,600 to PLN 4,242, and the minimum hourly rate increased from PLN 23.50 to PLN 27.70.

At the same time, work is ongoing on the release of funds from the “National Recovery Plan” (NRP) financed by the European Fund. At the same time, it is worth mentioning two factors that may affect the dynamics of the Polish advertising market. First, it is uncertain to what extent the release of funds from the NRP will affect the growth of Polish GDP and thus the growth of the advertising market already in 2024 alone. Secondly, it is difficult to estimate, how will the state-owned enterprises and the state administration centers themselves behave when spending funds on ads and commercials. At this point, it is difficult to estimate whether these funds will be less in 2024 or comparable to those that have appeared in the advertising market in recent years.

In response to macroeconomic changes, Agora S.A. started reorganising the Group’s operations by means of a plan to separate the organised parts of the enterprise as separate companies, and at the beginning of 2024, restructuring was initiated in the Digital and Printed Press (Gazeta Wyborcza) and the Internet (Gazeta.pl) segments, which includes adapting the company to the changing market and expectations of recipients, thus ensuring stability and development of the Company in the following years.

The above factors will affect both the revenue potential of the Agora Group and the increase in operating costs.

3.1 Revenues

3.1.1 Advertising market [1]

The advertising market in Poland grew by more than 6.0% in the fourth quarter of 2023, and advertisers spent PLN 3.68 billion to promote their products and services during this period. In the first quarter of 2023, the growth rate of the advertising market was almost 6.0%, in the following quarters it reached almost 6.5% and almost 7.5% in the third quarter of 2023. In the whole of 2023, the advertising market in Poland reached a value of about PLN 12.0 billion, and grew by almost 6.5% compared to 2022.

For all of 2023, the year-on-year growth rate was 6.5%, which was higher than Agora S.A.'s assumptions. It is worth noting that in the whole of 2023, the value of the advertising market was about 20.0% higher than in record 2019, the year before the COVID-19 pandemic.

After analyzing available data and observing market trends, the company has decided to give its preliminary expectations for the dynamics of the advertising market in 2024. We expect the dynamics of advertising spending in Poland for the whole of 2024 to be at around 5.0-7.0%. Total advertising market growth should be similar to that observed throughout 2023. In 2024, we should expect higher advertising investments related to global sports events (EURO in Germany and the XXXIII Summer Olympics in Paris). In addition, a positive element for the advertising market will be the local elections and the European Parliament elections.

The current data on the estimates of the dynamics of changes in the value of advertising expenditure in individual media are presented in the table below:

Tab.3

Total advertising expenditure	Television	Internet	Radio	Outdoor	Press	Cinema
5.0-7.0%	3.0%-5.0%	5.0-8.0%	4.0-7.0%	4.0-7.0%	(8.0%)-(5.0%)	9.0-14.0%

At the same time, it is worth noting that it is difficult to make long-term assumptions due to the many uncertainties and rapid changes in the market environment. Uncertainty applies to macroeconomic factors related primarily to the geopolitical situation. Therefore, the above estimates may be subject to error, and their accuracy may be much lower than in periods of greater predictability.

3.1.2 Copy sales

In the first quarter of 2024, negative trends relating to copy sales of dailies in their print editions will continue. Agora develops sales of access to the content of Wyborcza.pl in the form of digital subscriptions. At the end of December 2023, the number of paid digital subscriptions of *Gazeta Wyborcza* amounted to 303.3 thousand and was similar year-on-year. Between January and December 2023, revenue from sales of copies in the Digital and Printed Press segment was higher by 0.7% than in 2022. This was mainly due to lower sales of the paper edition of *Gazeta Wyborcza*, with the increase of sales of Wyborcza.pl subscriptions. In the company's opinion, the trend of growing revenue from the sale of Wyborcza.pl subscriptions will also continue throughout 2024.

3.2 Operating cost

The Company's total operating expenses in 2024 will be higher than those recorded in 2023. This will be driven primarily by an increase in the cost of materials and energy, as well as third-party services, following the continued high inflation and rising salary costs related to the increase in the minimum wage. The Group's operating expenses will be decisively impacted by higher costs of materials and energy consumption, costs of third-party services, salaries and benefits for employees - with the exception of the Digital and Printed Press segment, as well as representation and advertising. In addition, depreciation and amortization costs will be lower due to limited investment costs in the Group, mainly in the Movies and Book segment.

3.2.1 Staff cost

According to the company's estimates, staff costs will be higher in 2024 than in 2023. From 1 January 2024, the minimum gross remuneration for work increased from the current PLN 3,600 to PLN 4,242, and the minimum hourly rate increased from PLN 23.50 to PLN 27.70. In the first quarter of 2024, the Company will carry out collective redundancies of up to 180 people in the Digital and Printed Press (*Gazeta Wyborcza*) and the Internet (*Gazeta.pl*) segments. The impact of these two factors will directly affect the performance of individual operating segments in the Agora Group. This cost category will increase in each of the Group's operating segments and its supporting divisions, except for the areas where the restructuring process is going to take place in the first quarter of 2024.

3.2.2 Cost of external services

In 2023, cost of external services amounted to PLN 108.7 million. According to the Company, in 2024 the level of these costs will be higher due to, among other things, higher marketing and computer services costs.

3.2.3 Cost of raw materials and energy

In 2023, cost of raw materials and energy increased compared to 2022. This item is most influenced by the Company's printing operations, particularly the cost of production materials, the volume of production and the exchange rate between the euro and the zloty. The Company estimates that this cost category will be at a similar level as in 2023.

3.2.4 Promotion and marketing cost

In 2023, promotion and marketing costs were 7.1% lower than in 2022. In 2024, the Company plans to implement further promotional activities in most business areas. The level of expenses incurred for this purpose will depend on the dynamics of changes taking place in individual media, the number of development projects being launched, as well as the market activity of competitors. Taking the above factors into account, the Company estimates that in 2024 the costs of representation and advertising will be at a similar level as in 2023.

3.3 Strategic directions for 2023-2026

In addition to improved results, the first quarter of 2023 also brought two important events for Agora. These were the approval by the Extraordinary General Meeting of Shareholders of the spin-off of companies from Agora S.A. and the acquisition of Eurozet, the realization of the next stage of the largest investment in media in the Group's history. Thanks to this transaction, the Agora Group is now the 4th largest media group in Poland, after the largest TV stations.

Following on from the events of early 2023, the Agora's Board presented strategic directions for 2023-2026 on April 26. They provide the foundation for the developmental activities of the entire organization and build on the Group's strengths, which are primarily the high quality of content and services offered, an attractive audience and a very broad media reach, as well as the advantages associated with the development of digital and subscription solutions achieved to date.

The strategic development directions for the Agora Group for 2023-2026 are:

- Development of media businesses and their outreach to audiences in Poland;
- Diversity and autonomy of businesses and opening to external investors;
- New management operating model to standardize back-office processes while taking into account the autonomy of businesses;
- Increasing shareholder value and improving the financial efficiency of the entire organization;
- Achieving an EBITDA result of more than PLN 200 million (excluding IFRS 16).

As a result, in 2026 Agora Group wants to be in the TOP3 of the largest Polish media companies, reaching tens of millions of people with important, attractive content and providing customers with the most effective advertising offer.

3.4 Summary of implementation of strategic directions to date

Over the course of 2023. The Agora Group and its business segments have carried out a number of activities that have brought it closer to realizing the above-mentioned directions both in terms of the Group and the segments. A summary of achievements to date in this regard is included below:

Agora Group:

- The Group is in the midst of a reorganization process, which is expected to be completed on April 1 this year. As part of the process, selected organized parts of the enterprise relating to the operations of the Digital and Print Press segment, the Gazeta.pl and Agora Publishing House divisions and the Administration division will be spun off. As of April 1, the selected business areas will start operating as separate wholly-owned subsidiaries of Agora S.A., which were registered back in 2023. These are Wyborcza Sp. z o.o., Gazeta.pl Sp. z o.o., Agora Books and Music Sp. z o.o. and Czerska 8/10 Sp. z o.o., respectively. Finalizing this process will be an important step toward realizing business diversity and autonomy and implementing a new operating model with business autonomy included.
- Through 2023, Agora Group has significantly increased its market valuation, thereby increasing shareholder value. The company's capitalization increased by nearly 135% over 2023, and by more than 58% from the publication of Strategic Directions (April 26 ur.) to the end of 2023.
- A significant increase in the value of EBITDA excluding IFRS 16 has also occurred. In 2023, the value amounted to PLN 116.7 million, up by as much as 140.6% compared to 2022. At that time, the value was PLN 48.5 million. The target for 2026 is PLN 200 million.

Below follows information on the progress of the strategic directions for each segment:

Radio:

The Agora Group has consistently pursued its goal of becoming the radio market leader in terms of listenership. In 2023, the difference in listenership share between the new Eurozet Group and the market leader RMF Group was 9.2 p.p., while in the same periods a year earlier the difference was 11.7 p.p. This was also associated with an increase in the share of the new Eurozet Group's stations in 2023 in listenership. It amounted to 26.2%, compared to 25.4% in 2022.

The Group's position in the digital audio market was also consolidated. The TOK FM Premium service increased the number of subscribers from 31,900 at the end of 2022 to 38,500 at the end of 2023, growing by 20.7%.

Movies and Books:

Over the course of 2023, there has been a repayment of one-third of the Helios cinema chain's debt during the pandemic period. The strategic direction is to repay the debt raised to maintain operations during the pandemic period by the end of 2025.

At the same time, the portfolio of cinema halls in the Helios Dream concept has been expanded, currently accounting for 8% of the network's total cinema halls, while at the end of 2022 they accounted for 6% of the total. The direction is to achieve a 10% share of Helios Dream auditoriums by 2026.

Internet:

Analyzing the market situation, it can be concluded that achieving the No. 3 position in the short term, in the market of horizontal portal publishers by the Agora Group, will be difficult to achieve. This makes it all the more important for us to focus on the implementation of strategic directions related to the quality and innovation of journalistic content (we have recently been awarded the Teresa Toranska, Andrzej Woyciechowski 2023, Mixx Awards 2023 or Innovation 2023 awards) and on our presence on social media platforms where younger users in particular are active.

Yieldbird continues to develop its proprietary technology solutions based on machine learning and AI, which complement publishers' daily work by making the space more efficient. In 2023, Yieldbird launched a technology platform that allows Publishers (customers) to enable Yieldbird products with a single click. Continuous development of technology offerings through the development and creation of new products and increasing sales in new markets is the basis of Yieldbird's long-term growth strategy. However, it is proceeding more slowly than expected.

Currently, the new business is fully SaaS in nature - recurring revenues, independent of the market situation. In Q4 2023, SaaS revenue accounted for almost a quarter of net revenue, up 151% from 2022. This value continues to grow and ultimately the majority of Yieldbird's net revenues will be generated through the SaaS model.

Digital and Printed Press

The Agora Group has strengthened its position as a leader in digital subscriptions in 2023, which is evident, among other things, in the area of ARPU growth of nearly 8% and in digital revenue growth of more than 4%. The increase in the aforementioned values is also associated with improvements in the efficiency of the segment's business model. This is illustrated by a 5% increase in revenue from content sales.

The segment is also moving steadily toward achieving financial self-sufficiency in 2025. The segment's achievement of financial self-sufficiency should be positively impacted by the restructuring process underway, which includes a group layoff program.

Outdoor

AMS Group maintains its leadership position in the OOH advertising market, including by achieving advertising revenue growth of 15.2%. In 2023, there was a strengthening of AMS' position in the digital OOH segment. Digital panels revenues recorded by the segment in 2023 grew 2 times faster than the DOOH market in Poland, while doubling in value. AMS is also a leader in EKO solutions. The company's portfolio currently includes more than 150 such media.

ESG Strategy for 2023-2027

In May 2023, Agora developed its first-ever sustainability strategy, titled Agora Group ESG Strategy 2023-2027. The document set goals for measurable actions in the process of reducing its carbon footprint, gender equality, promoting diversity in society and the workplace, and ethical business practices aimed at making a positive impact on the environment and countering all forms of human rights violations.

By the end of 2023, Agora achieved nearly a 15% reduction in emissions (in the 1+2 market-based ranges) compared to the base year, thus meeting the target it had set for 2025. In the employee area, there was a significant decrease in the Glass Ceiling Ratio (an indicator depicting equality of opportunity in promotion and development), which also made it possible to meet the 2025 target already in 2023. In addition, in the past year, Agora has started to work on goals related to mitigating negative environmental impacts, including in the supply chain and in the process of developing a diversity strategy for the entire Agora Group.

- (1) particular sales positions, apart from printing services, include sales of Agora Publishing House and film activity, amounting to PLN 54.5 million in 2023 (in 2022: PLN 52.7 million);
- (2) the amounts do not include revenue generated by Agora Publishing House;
- (3) the amount includes revenues from sub-licence granted by Agora S.A. to the subsidiary company in Agora Group for film distribution;
- (4) the data includes advertising sales in Gazeta Wyborcza's paper editions, as well as advertisements published on Wyborcza.pl, Wyborcza.biz, Wysokieobcasy.pl and local websites;
- (5) the amounts include the revenues of periodicals and Gazeta Wyborcza's magazines.

In 2023, Agora's advertising revenues were lower than in 2022. - They fell by 4.1%, reaching PLN 167.6 million. This was due to lower revenues from the sale of advertising services in the Gazeta.pl division, in Gazeta Wyborcza and Magazines and Magazines, as well as in Agora Publishing.

Revenues from the sale of publications in 2023 were 2.0% higher than in 2022, amounting to PLN 140.1 million. This was driven by an increase in revenues from sales of Agora Publishing House and higher revenues generated from sales of digital subscriptions to Wyborcza.pl and Magazines and Magazines, with lower revenues from the paper edition of Gazeta Wyborcza. At the end of 2023, the number of digital subscriptions to Wyborcza.pl exceeded 303.3 thousand, and revenues from these subscriptions increased by 7.6%.

Revenues from sales of printing services were 12.8% higher than in 2022, amounting to PLN 37.0 million. The aforementioned increase was due to higher prices for coldset technology customers, mainly local governments.

Revenues from other sales increased by 9.1% and reached PLN 52.8 million. This was mainly due to an increase in revenues of the supporting divisions, the Digital and Printed Press segment and Agora Publishing, with lower revenues of the Gazeta.pl division.

1.2. Sales and markets

Over 83% of the Company's total sales were realized in the domestic market. Sales to foreign markets are realized mainly through advertising services to foreign customers and the sales of printing services and sales of publications (including foreign subscription).

The Company is not dependent on one particular customer. The biggest customers (in respect of the turnover) are technology companies and press distributors (companies unrelated to Agora S.A.). In 2023, the value of transactions with one of the Company's customers exceeded 10.0% of the total revenue of Agora S.A.

In 2023, the Company did not have commercial relations with contractors from the area of Russia and Belarus.

1.3. Suppliers

The Company does not depend on one particular supplier. Newsprint and printing services are important cost items of the Company. Newsprint used for printing Company's own titles and for external clients is purchased from several suppliers. In 2023, the value of transactions with none of the suppliers exceeded 10.0% of the Company's total revenue.

In 2023, there were no expenditures on materials and raw materials from the area of Russia and Belarus.

1.4. Finance cost, net

Company's result on financial activities in 2023 was negatively influenced by bank commissions and interest on the loan facility, lease and cash pooling liabilities. The above influence was partially setoff by foreign exchange gains on loan liabilities to SFS Ventures s.r.o. and interest income on short-term investments.

TOTAL LIABILITIES AND EQUITY	961.0	979.2	(1.9%)

2.1. Non-current assets

The increase in non-current assets, versus 31 December 2022 resulted mainly from the increase in long-term financial assets due to additional acquisition of shares in Eurozet Sp. z o.o. The increase was, to some extent, offset by depreciation of property, plant and equipment, amortisation of intangible assets and depreciation of right-of-use assets, the decrease in property, plant and equipment due to sale of property in Tychy and decrease in deferred tax assets.

2.2. Current assets

The decrease in current assets versus 31 December 2022, stems mainly from the decrease in cash and cash equivalents, inventories, current receivables and current financial assets.

2.3. Non-current liabilities and provisions

The decrease in non-current liabilities and provisions compared to 31 December 2022, stems mainly from the decrease in long-term bank loans, liabilities arising from purchase of property, plant and equipment and intangible assets.

2.4. Current liabilities and provisions

The increase in current liabilities and provisions, versus 31 December 2022, stems mainly from the increase in bank loans, cash pooling liabilities, accruals and contract liabilities.

3. CASH FLOW STATEMENT OF AGORA S.A.

Tab.7

<i>in PLN milion</i>	2023	2022	<i>% change yoy</i>
Net cash from operating activities	(19.3)	(64.9)	70.3%
Net cash from investment activities	(5.2)	39.9	-

Total movement of cash and cash equivalents	(12.9)	(57.0)	77.4%
Cash and cash equivalents at the end of period	13.6	26.6	(48.9%)

As of 31 December 2023, the Company's monetary assets amounted to PLN 13.6 million, which comprised cash and cash equivalents (cash, bank accounts and bank deposits).

In 2023, Agora S.A. was not engaged in any currency option instruments or other derivatives used for hedging or speculative purposes.

As at the date of this MD&A report, considering the cash position, the cash pooling system functioning in the Group and available credit facility, the Company does not anticipate any liquidity problems. At the same time, attention should be paid to the uncertainties accompanying these predictions, described in more detail in Chapter II.3 Perspectives of this MD&A.

3.1. Operating activities

Cash flows from operating activities in 2023 were higher comparing to the level recorded in the comparative period of the prior year mainly due to changes in the Company's working capital, mainly including lower repayment of liabilities when compared to the corresponding period of prior year.

3.2. Investment activities

Negative net cash flows from investing activities, in 2023, resulted mainly from the acquisition of shares in the company Eurozet Sp. z o.o. and expenditure on property, plant and equipment and intangible assets. These expenditure was, to some extent, compensated by dividend inflows and gain on sale of property in Tychy.

3.3. Financing activities

Positive net cash flows from financing activities in 2023 resulted mainly from inflows from bank loans, a loan from SFS Ventures s.r.o. and cash pooling inflows. Those inflows were, to some extent, offset by outflows for bank loans repayments and complete repayment of a loan from SFS Ventures s.r.o. and cash pooling outflows.

NOTES

[1] The data concerns advertisements and announcements in six media (press, radio, television, outdoor advertising, internet, cinema). In this report, Agora has adjusted the data on advertising expenditures in dailies in the first, second and third quarters of 2023, television advertising expenditures in the fourth quarter of 2022.

Unless explicitly stated otherwise, the data presented in the body of this commentary on the level of market advertising expenditures in print and radio are estimated by Agora taking into account the level of average discount and are given in current prices. Therefore, given the discount pressure and the media's selling out of advertising time/space, these data may be subject to certain errors, which may be corrected on an ongoing basis.

Data for newspapers are for dimensional ads only, excluding inserts, classified ads and obituaries. Price list expenditures from Kantar Media monitoring were used as the basis for estimates.

Presented TV, Internet and cinema figures are based on initial Starcom media house estimates; TV estimates include regular ad broadcast and sponsoring with product placement, exclude teleshopping and other advertising forms.

Internet ad spend estimates include display, search engines (Search Engine Marketing), e-mail marketing and video advertising.

Outdoor advertising figures are based on Izba Gospodarcza Reklamy Zewnętrznej and media house Publicis Media [8].

The Company would like to stress that one should bear in mind that these advertising market estimations may represent some margin of error due to significant discount pressure on the market and lack of reliable data on the average market discount rates. Once the Company has a more reliable market data in consecutive quarters, it may correct the ad spending estimations in particular media.

[2] Definition of ratios:

$$\text{Net profit margin} = \frac{\text{Net profit / (loss)}}{\text{Total sales}}$$

$$\text{Gross profit margin} = \frac{\text{Gross profit / (loss) on sales}}{\text{Total sales}}$$

$$\text{Return on equity} = \frac{\text{Net profit / (loss)}}{(\text{Equity at the beginning of the period} + \text{Equity at the end of the period}) / 2}$$

$$\text{Debtors days} = \frac{(\text{Trade receivables gross at the beginning of the period} + \text{Trade receivables gross at the end of the period}) / 2}{\text{Total sales / no. of days}}$$

$$\text{Creditors days} = \frac{(\text{Trade creditors at the beginning and the end of the period} + \text{accruals for uninvoiced costs at the beginning and the end of the period}) / 2}{(\text{Cost of sales} + \text{selling expenses} + \text{administrative expenses}) / \text{no. of days}}$$

$$\text{Inventory turnover} = \frac{(\text{Inventories at the beginning of the period} + \text{Inventories at the end of the period}) / 2}{\text{Cost of sales / no. of days}}$$

$$\text{Current ratio} = \frac{\text{Current Assets}}{\text{Current liabilities}}$$

$$\text{Gearing ratio} = \frac{\text{Current and non-current liabilities from loans and leases – cash and cash equivalents – highly liquid short-term monetary assets}}{\text{Total equity and liabilities}}$$

$$\text{Interest cover} = \frac{\text{Operating profit/(loss)}}{\text{Interest charge}}$$

$$\text{Free cash flow interest cover} = \frac{\text{Free cash flow (1)}}{\text{Interest charge}}$$

(1) Free cash flow = Net cash from operating activities + Purchase of property plant and equipment and intangibles.

The performance measure "EBIT" represents net operating profit/(loss) defined as net profit/(loss) in accordance with IFRS before finance income and costs, share of results of equity accounted investees and income taxes.

The performance measure "EBITDA" is defined as EBIT increased by depreciation and amortization and impairment losses of property, plant and equipment, intangible assets and right-of-use assets.

In the Management Board opinion, EBITDA constitutes a useful supplementary financial indicator in assessing the performance of the Company. It should be taken into account, that EBIT and EBITDA are not measures determined by IFRS and have not a uniform standard of calculation. Accordingly, their calculation and presentation by the Company may differ from that applied by other companies.

[3] "Sales" data for paid dailies are presented according to information from the Polish Readership Survey (PBC). The term "sales" used in this commentary means "issue sales" from declarations submitted by publishers to the PBC. All average measures (grouping more than one title) are calculated according to the rule: total sales/number of issues for the title with the most issues in a given period. Based on the average thus calculated, year-on-year dynamics are shown.

Reasons for delaying the transfer of Confidential Information to the public:

In the Management Board's opinion, the immediate disclosure of Confidential Information generated the risk of a negative impact on the course and outcome of the negotiations, the terms of the Annex to the Shareholders Agreement ("Annex") and the probability of its conclusion. Considering the materiality of matters covered by the Annex for the rules of acquiring shares of the company Eurozet sp. z o.o. and the execution of the long-term strategy of Agora Group, disclosing information about the Company's negotiations on the Annex could contribute to third party interference, which could have a negative impact on the duration and the terms of the Annex and its very conclusion.

The above could, in particular, result in obtaining conditions worse than in the case of keeping the information confidential, and even the lack of successful completion of the negotiation in future. In the opinion of the Management Board, the above premises meet the criteria for the possibility of infringement of the legally legitimate interest of the issuer specified in point 5.1.10a of the ESMA Guidelines.

Due to the unpredictable outcome of the negotiations, the Management Board decided that publication of the Confidential Information to the public could result in inappropriate assessment of this information and its potential impact on the Company's value by the public.

In the opinion of the Management Board, there were no indications that delay in disclosing Confidential Information could mislead the public, in particular due to the fact that the considered finalization the purchase of the majority package of shares of Eurozet sp. z o.o. was communicated by the Company as part of its filings and execution of responsibilities of a public company, which shares are listed on the regulated market. In view of the above, there were no grounds to consider that the delay in publishing the Confidential Information to the public contrasts with the market expectations based on the communication previously conducted by the Company.

The Company also took and implemented measures necessary to keep Confidential Information confidential, until it was made public, in particular by implementing, at the level of the Capital Group of the Company, the internal circulation and information protection procedure. At the time of the decision to delay disclosure of the Confidential Information, pursuant to Art. 18 MAR, a list of persons having access to Confidential Information was prepared, which was monitored on an ongoing basis and updated as necessary.

According to art. 17 sec. 4 MAR, immediately after the publication of this report, the Company will inform the Polish Financial Supervision Authority about the delay of disclosure of the Confidential Information together with an indication of the fulfilment of the reasons for such delay.

▶ **HRlink Sp. z o.o.**

In the regulatory filing of January 4, 2024, on the basis of Article. 17 sec. 1 and 4 of Regulation (EU) No 596/2014 of the European Parliament and of the Council of 16 April 2014 on market abuse (regulation on market abuse) and repealing Directive 2003/6 / EC of the European Parliament and of the Council and Commission directive 2003 / 124 / WE, 2003/125 / EC and 2004/72 / EC ("MAR"), the Management Board of Agora SA ("Company") ("Management Board") disclosed confidential information on the initiation of negotiations with eRecruitment Solutions sp. z o.o. with its seat in Warsaw ("eRecruitment Solutions") whose sole shareholder is Grupa Pracuj S.A., from November 29, 2023, on sale of shares in HRlink sp. z o.o. ("Confidential Information")("Negotiations").

Contents of the delayed Confidential Information:

The Management Board of Agora S.A. with its seat in Warsaw ("Company") hereby informs that today, in view of agreeing between the Company and eRecruitment Solutions on basic principles of the transaction, the Company decided to commence negotiations with eRecruitment Solutions on sale of shares of HRlink sp. z o.o. with its seat in Warsaw ("HRlink").

The commencement of the negotiations described above does not mean that they will end with the establishment of final conditions or conclusion of the negotiated agreement.

Reasons for delaying the transfer of Confidential Information to the public:

In the opinion of the Management Board, the delay in disclosure of the above Confidential Information met the conditions set out in the MAR and the guidelines of the European Securities and Markets Authority (ESMA) regarding the delay in disclosure of confidential information and interactions with prudential supervision of April 13, 2022 ("ESMA Guidelines") at the time of the decision on delay.

In the Management Board's opinion, the immediate disclosure of Confidential Information generated the risk of a negative impact on the course and outcome of the Negotiations, and the probability of its conclusion. Disclosure of information about the Company's Negotiations could contribute to third party interference, which could have a negative impact on the duration and the terms of the Negotiations.

The above could, in particular, result in obtaining conditions worse than in the case of keeping the information confidential, and even the lack of successful completion of the Negotiations in future. In the opinion of the Management Board, the above premises meet the criteria for the possibility of infringement of the legally legitimate interest of the issuer specified in point 5.1.10a of the ESMA Guidelines.

Due to the unpredictable outcome of the negotiations, the Management Board decided that publication of the Confidential Information to the public could result in inappropriate assessment of this information and its potential impact on the Company's value by the public.

In the opinion of the Management Board, there were no indications that delay in disclosing Confidential Information could mislead the public.

The Company also took and implemented measures necessary to keep Confidential Information confidential, until it was made public, in particular by implementing, at the level of the Capital Group of the Company, the internal circulation and information protection procedure. At the time of the decision to delay disclosure of the Confidential Information, pursuant to Art. 18 MAR, a list of persons having access to Confidential Information was prepared, which was monitored on an ongoing basis and updated as necessary.

According to art. 17 sec. 4 MAR, immediately after the publication of this report, the Company will inform the Polish Financial Supervision Authority about the delay of disclosure of the Confidential Information together with an indication of the fulfillment of the reasons for such delay.

In the regulatory filing of January 4, 2024, the Management Board of Agora S.A. with its seat in Warsaw ("Agora"), in connection with the regulatory filing No. 1/2024 of January 4, 2024, informed that on January 4, 2024 Agora concluded with eRecruitment Solutions sp. z o.o. with its seat in Warsaw, a company belonging to Grupa Pracuj S.A. capital group („eRecruitment Solutions”), a share purchase agreement concerning sale of all shares of HRLink sp. z o.o. with its seat in Szczecin ("HRLink") held by Agora ("Transaction").

The Transaction consisted of sale of all shares in HRLink held by Agora, i.e. 95 shares constituting 79.83% of the share capital of HRLink for a price of PLN 6,204,196.53.

As a result of the Transaction, the investment agreement concerning HRLink concluded between Agora and natural persons being minority shareholders of HRLink and HRLink, has expired. Agora informed about the investment agreement in the regulatory filing No. 25/2019 of September 12, 2019.

The Transaction did not include the company Goldenline sp. z o.o. – a company in which HRLink held 100% of share capital. Goldenline sp. z o.o. remains in Agora capital group.

Agora reported on the investment in HRLink in regulatory filing No. 23/2019 of August 29, 2019 and 25/2019 of September 12, 2019. Completion of the Transaction means the end of investment in HRLink by Agora.

► **Disposal of organized parts of the enterprise for the benefit of the Company**

In accordance with the abovementioned resolution, the Management Board has decided to limit the current project of the disposal of ZCP for the benefit of subsidiaries to the following selected ZCP:

1. ZCP dedicated to operate Agora Publishing House;
2. ZCP dedicated to the maintenance of gazeta.pl web portal;
3. ZCP dedicated to operations of Gazeta Wyborcza;
4. ZCP dedicated to the maintenance, use and enjoyment of the Company's real estate.

The Company informed that bearing in mind the range of resolutions Nos. 6-12 of the Extraordinary General Meeting of the Company adopted on March 27, 2023 ("Resolutions"), the Company may, within the time frame stated in the Resolutions, decide to dispose for the benefit of subsidiaries of next ZCP, as described in the Resolutions.

► **Participatioin proceedings initiated by a group of European publishers against Google Netherlands B.V.**

In the regulatory filing of February 28, 2024, the Management Board of the Company informed that a lawsuit against Google Netherlands B.V. ("Defendant") was filed with the District Court in Amsterdam (Gerechtshof). In the lawsuit, the company Greyfield Capital ("Claimant") seeks compensation form the Defendant arising out of a claim of the European press publishers, in the amount of app. EUR 2.1 billion for the anticompetitive practices on the European AdTech market in the years 2014-2023.

One of the more than 30 European media groups engaged in the lawsuit is Agora and its subsidiaries: Grupa Radiowa Agory sp. z o.o. and Eurozet sp. z o.o. Due to the nature of the initiated proceedings, European publishers made, for the benefit of the Claimant (SPV), an assignment of compensation claims due for the anticompetitive practices performed by the Defender's capital group. The Claimant in the interest and on behalf of the publishers initiated proceedings before the Dutch court, which, as a result of legal analysis, was pointed as having jurisdiction over the case concerning compensations on the territories of several EU member states.

Arguments concerning validity of the asserted claims are based on the previous decision as of June 7, 2021 (No. 21-D-11) of the French competition authority (Autorité de la concurrence), which stated that Google abused its dominant position on the AdTech market and imposed a fine in the amount of EUR 220 million.

The amount of the claim was calculated by a team of economic experts from Charles River Associates (CRA International, Inc.) cooperating with the Claimant, basing on analyses and market tests, public information and data provided by the publishers. The potential compensation due to the Agora capital group companies was estimated in the amount of EUR 44 million. It should be noted that the above amounts are an estimation made by CRA International, Inc. and, as a consequence, are not final and may be subject to change, in particular due to mitigation made by the court and the additional costs and fees to be paid for the benefit of advisors. It is also worth noting that the proceedings initiated by the Claimant are largely of a precedent-setting nature, and based on analyses and estimations of parties, which also influence the uncertainty of the result of the suit and the amount of the potential compensation.

The Claimant cooperates with European law firms – Geradin Partners Limited and Stek Advocaten B.V. The entity funding the proceedings is Harbour Fund V L.P. who also bears the risk of possible failure of the asserted claim (i.a. bears the cost of the proceedings and remuneration of advisors in case the claim is not recognized by the court). In case the Claimant receives the compensation, its part due to Agora and its subsidiaries shall be transferred to Agora subject to payment of the proceedings costs and remuneration of advisors and the entity funding the proceedings.

12. THE DESCRIPTION OF BASIC HAZARDS AND RISK

• Macroeconomic risk

The amount of advertising revenue depends on the overall economic situation in Poland and Europe. This revenue increases in times of economic recovery and decreases during economic downturn. According to available macroeconomic forecasts, the fourth quarter of 2023 and the subsequent quarters of 2024 will bring a higher economic growth rate in Poland than in the Western European countries, declining inflation and slow stabilisation in the prices of energy raw materials, food, goods and services. The development of the economic situation in Poland in the subsequent periods will also be characterised by high uncertainty due to the further course of the armed conflict in Ukraine and its geopolitical consequences, among other factors. These factors may influence decisions on the possible suspension of spending on promotion due to uncertainty about further economic development and the situation in Ukraine and their consequences for the Polish economy. Despite these circumstances, advertisers spent 6.5% more on advertising in 2023 than the year before. It should be borne in mind that the amount of advertising revenue depends not only on the volume of advertisements and announcements, but also on the prices charged for the publication of such advertisements by the media. In 2024, the macroeconomic situation in Poland may be affected by the ongoing war following Russia's attack on Ukraine. Its effects are already reflected in the weakening of the Polish currency, which, together with rising commodity prices, in particular fuel prices, will lead to continually high inflation.

At the same time, work is ongoing on the release of funds from the "National Recovery Plan" (NRP) financed by the European Fund. The release of these funds will have a positive impact on the parity of the zloty in relation to other currencies and will boost long-term GDP.

The above factors will affect both the revenue potential of the Agora Group and the increase in operating costs.

► Risk related to COVID-19

The COVID-19 pandemic and the measures of the government administration undertaken to limit the further spread of the virus had a significant impact on the activities of the Agora Group in 2020, 2021 and 2022. The new variants of the virus and the restrictions on business activity make the results of the Agora Group vulnerable to the negative impact of sanitary restrictions caused by a possible pandemic.

Most of the factors related to the pandemic, which have affected and may affect the results of the Agora Group in the future, remain completely beyond Agora's control and depend on the measures taken by state authorities (including restrictions on business activity), the rate of return of various economic sectors to full operations, changes in GDP or inflation in Poland.

Both Agora and all the companies of the Group have taken and will take a number of measures aimed at minimising the losses caused by the COVID-19 pandemic and the Group's rapid return to the growth path as regards both revenues and operating results. As at the date of this report, the Management Board of Agora expects that the efforts made will have a positive effect. However, the above assumptions are based on the analyses and forecasts the accuracy of which cannot be assessed due to the fact that they have been prepared in an unprecedented situation. The outbreak of the COVID-19 pandemic made governments around the world undertake measures with significant impact on the economic development of each jurisdiction, caused by restrictions aimed at stopping any further spread of the virus. The development of the COVID-19 pandemic and further measures to be implemented by the Polish government in order to fight it are unknown to the Company. Their duration and scale may significantly affect the Company's analyses and estimates, in particular with regard to the value of the advertising market, the number of tickets sold in cinemas and concession sales, as well as the revenue from copy sales.

► Climate risk

Climate risks, i.e. risks resulting from the consequences of climate change. These risks are both driven by rapid weather events and by the need for the economy to adapt to progressive climate change, in particular to the use of low-carbon solutions. Climate risks pose a real threat to Agora's operations, because in the case of absence/reduction of raw materials enabling the manufacture of products and the provision of services by all Group companies, the organisation will be forced to change the manner of conducting its current activities.

In 2021, the Agora Group identified and analysed climate risks and the resulting threats and opportunities. In addition, their time horizon and the manner of management were determined.

The study was carried out in accordance with the **AXIS** (Amplification, eXclusion, Intensification, Seizure) methodology and included three stages:

1. Analysis of significant climate risks in a group of companies comparable to the Agora Group;
2. Questionnaire-based survey of the Management Board and managerial staff of all operating segments of the Agora Group;
3. Calculation of results and classification of identified risks, threats and opportunities.

According to the applied methodology, 2 opportunities and 4 threats were classified in the category **S (Seizure)**, i.e. they were considered significant and subject to active management. Threats and opportunities in categories **I (Intensification)** and **A (Amplification)** are monitored and managed in selected cases. Most of the threats and opportunities in category **X (eXclusion)** are subject only to monitoring. Conclusions from the climate risk study were included in the risk management system in place in the Agora Group. Further monitoring and identification of risks related to climate change is carried out periodically as part of the review of non-financial risks. The study was conducted in cooperation with an external consulting firm. The study was conducted in cooperation with an external consulting firm MATERIALITY.

The results of the climate risk analysis carried out in 2021 also apply in 2022 and 2023. The study will be updated in 2024.

The results and a detailed description of the methodology of the current study can be found in the "ESG Report of Grupa Agora S.A. and Agora S.A.", which is available at: www.agora.pl/esg.

▮ Seasonality of advertising spending

The Group's revenue from the sale of advertising services is seasonal. In the first and third quarter, it is usually lower than that generated in the second and fourth quarter of a given financial year. In recent years, the seasonality of advertising revenue has been severely distorted by the outbreak of the COVID-19 pandemic, the outbreak of war in Ukraine and the overall economic downturn in Poland. In 2023, the market managed to recover to a certain extent, but it is difficult to currently assess how the advertising spending will look like in Poland in 2024 and in which quarter. This also means that it is difficult to estimate how the impact of the war in Ukraine and the economic downturn will disrupt economic activities.

▮ Advertising market structure and the position of individual media in readership, TV and radio audience market

The Group's advertising revenue is generated by the following media: the press, outdoor advertising, radio stations, the Internet and cinemas. In 2022 and 2023, the structure of the advertising market was seriously affected by the war in Ukraine. As a result of the structural changes in the media and their convergence, the media in the Group's portfolio compete for advertising revenue not only with other entities in their segments, but also with television broadcasters, which accounted for 39.0% of the advertising market in 2023. Another large segment of the advertising market was the Internet with its 44.0% share. Advertising spending in magazines and dailies accounted for 2.0% and 1.0% of all advertising spending, respectively. Outdoor advertising media accounted for 5.5% of all advertising spending in 2023, while 7.0% of all advertising spending was spent on radio advertising. During that period, 1.5% of all advertising spending was allocated for cinema advertising. Given the dynamics of individual media and considering high uncertainty regarding the value of the advertising market in 2024, there is a risk that the shares of individual media in the total advertising market will change, which may affect the Group's position and its revenue. The factors that will affect the structure of this market in 2024 will include the effects of the war in Ukraine and the macroeconomic situation in Poland, which affected various segments of the advertising market to a different extent. Additionally, as a result of the changes described above and the consolidation of the advertising market, competition between individual media intensifies, which may have an impact on the Group's advertising revenue. Furthermore, due to changes in the media and technological developments, it is not certain that the Group will be able to respond appropriately and timely to these developments, which may have a negative impact on its position and performance. Advertising revenue also depends on the position on the readership, listenership and viewership market. Due to the process of structural changes in the way media consumption takes place, the market is changing dynamically and some segments may gain, while other may lose their position in this market. It is uncertain whether the Group's position in individual media segments will remain the same.

▮ Press

The press market is currently facing a global trend of decreased copy sales and reduced advertising spending. This trend has been further accelerated and deepened by the pandemic. Just like the competitive press titles, the press titles published by the Group are not resilient to market changes – their number and volume are shrinking. The dynamics of the above processes may have a negative impact on copy sales and the Group's revenue. In addition, the activities of press publishers and their financial results are seriously affected by the problems relating to paper availability across Europe and its rising prices. At the same time, the Group digitises its content and it introduced a system of the so-called metered paywall on the websites related to *Gazeta Wyborcza* in 2014. At the end of December 2023, the number of paid active digital subscriptions was over 300 thousand. Currently, the Company focuses its activities on increasing the average revenue from each subscription and on increasing advertising revenue on the websites related to *Gazeta Wyborcza*. It is difficult to assess whether these objectives will be achieved by the Company given the intense competition on the Internet market.

▮ Press distribution

The main channel of press distribution used by all press publishers in Poland is newspaper outlet chains in locations with heavy traffic, as well as food store chains and service stations. Historically, the distribution market in Poland was concentrated, with the two largest distributors accounting for over 80% share in press distribution. In 2018, RUCH S.A. ceased to pay its debts to the publishers. The entity's poor financial condition led to reduced cooperation with it and to further decreases in the copy sales of printed press. In 2020, RUCH S.A. was acquired by PKN Orlen S.A. and at the end of April 2024, RUCH S.A. is going to withdraw from press distribution.

In addition to a periodic reduction in the number of retail outlets, the outbreak of the COVID-19 pandemic in 2020 resulted in a sharp decline in the sales of paper press. This translated into the profitability of the distributors' activities and thus, into further turmoil on the distribution market. On 1 August 2021, the third largest distributor of the press – Garmond Press S.A. – initiated a simplified arrangement procedure, which was approved by the court of first instance in December 2021. Currently, restructuring processes are implemented in the company. Due to the problems faced by the aforementioned distributors, the largest one – Kolporter S.A., increased its market share and reports positive results from its activities, although these changes will significantly affect the press distribution channels in 2024. At the moment, we are unable to estimate the impact of these changes on distribution channels and the methods of settlement with distributors.

The pandemic situation has caused many changes in the way media consumption takes place, including the press. As a result, some readers of the printed press exchanged traditional editions for digital ones. This partially compensates for decreases in paper press sales, but at the same time, it entails a change in the business model of most press publishers and significantly affects the state of the press distribution market.

▶ **Internet**

Polish market for online advertising services is extremely competitive and the number of Internet users is not growing so quickly any more. Internet activity is largely dependent on technological advances and the number of users, and a strong position in this market can be maintained by investing in modern and innovative technological solutions. The development of this medium is also determined by the available infrastructure. Internet access is also changing, which may significantly affect the dynamics of this market's development. The number of users of mobile Internet connections is on the rise. Both changes in the way the Internet is used and the increase in connection speeds may affect the dynamics of the development of individual segments of the online advertising market. The Group competes with both local and international players in this segment. In such a competitive market, it is uncertain that the Group's position in this segment and its revenue from online advertising services will not change. In addition, the online advertising market is undergoing a significant transformation. Advertising in search engines and social media is increasingly popular, as is programmatic, video and mobile advertising. A strong position in a rapidly changing online advertising market requires investments in advanced technological solutions. It is not certain whether the Group will be able to compete in this area with national and international players with a large financial background.

▶ **Responsibility for published content**

The Agora's activities are based in many respects on the publication of content from journalists, writers, publicists or users of online fora. This may involve the publisher's liability or joint liability for the dissemination of illegal information, including information that violates personal rights. It cannot be ruled out that the Company could unintentionally violate such rights and, as a result, claims could be brought against it, which could lead to the need to pay relevant compensation.

▶ **Risk of claims as a result of intellectual property rights infringement**

Agora's operations are largely based on the use of intellectual property rights and licence agreements. Agora is of the opinion that it does not infringe any intellectual property rights of third parties in its activities. However, it cannot be ruled out that the Company could unintentionally infringe such rights. As a result, claims could be brought against the Company, which could lead to the need to pay relevant compensation.

▶ **Risk of rapid changes in law regulations, especially those relating the Company's operations**

Due to the fact that legal regulations change frequently in Poland, they may have a negative impact on the Group's operations and entail a risk in conducting business activities. In particular, the Group's activity may be affected by changes in the law governing the activities performed, including changes in the provisions of the Broadcasting Act and its implementing regulations, the Act on Copyright and Neighbouring Rights, as well as changes in the acts regulating capital market activities in Poland. Legal regulations may also potentially give rise to certain risks related to interpretation problems, lack of judicial practice, unfavourable interpretations adopted by courts or public authorities.

In addition, legal regulations in Poland are characterised by high changeability. Possible changes in business taxation, in respect of income tax, value added tax and other taxes and levies, may adversely affect the Group's operations and performance. The Group is also exposed to risks related to the possibility of changing the interpretation of both tax law and other public levies, which may affect operating activities and financial results.

▶ **Risk related to proceedings before supervisory authorities**

As part of its business activities, Agora is subject to ongoing inspections by institutions supervising certain areas of its activity. In the Company's opinion, all activities undertaken by the Company comply with applicable laws, therefore, although the Company does not currently expect any of the proceedings to which it is a party to have a material adverse effect on its financial position and performance, it is not certain that the final outcome of current or future proceedings will not have such an impact on the Agora's performance or financial position.

▶ **Impairment tests**

In accordance with the International Financial Reporting Standards, the Group tests impairment of assets. In the past, in several cases where the test results were negative, appropriate write-downs were made debiting the income statement (either standalone or consolidated). It is not certain that future asset impairment tests will produce positive results, in particular at a time when the negative effects of the war in Ukraine affect most economic sectors.

▶ **Currency risk**

Agora's revenues are expressed in Polish zlotys. Some of the Company's operating costs mainly related to cinema operations, services and production materials (paper) and IT services are linked to foreign exchange rates. A change in the value of the Polish currency, in particular with respect to the PLN/EUR ratio, may affect the level of operating costs and the Company's results.

▶ **Interest rate risk**

Changes in interest rates may affect the Company's financial costs related to the cost of servicing the Company's debt.

▶ **Risk of losing key employees**

Agora's success depends on the engagement and skills of key employees. The Company's managerial staff has made a significant contribution both to the Group's development and to the efficient optimisation of its operational processes. Due to market competition for highly qualified staff, the Group is uncertain whether it will be able to retain all key employees in the face of increasing wage pressure.

▶ **The risk of collective dispute**

At present, there are three trade union organisations in the Agora Group. The first one – Intercompany Organisation Independent Self-Governing Trade Union "Solidarity" of AGORA S.A. and INFORADIO SP. Z O.O. ("IO") – was established on 12 December 2011 and operates at Agora S.A., Inforadio sp. z o.o., AMS S.A., Plan D sp. z o.o. (formerly Domiporta sp. z o.o.), Goldenline Sp. z o.o. and Grupa Radiowa Agory Sp. z o.o.

In May 2020, Agora S.A. received a formal notice about the establishment of the second trade union organisation – Company Branch of Workers' Initiative Trade Union Poland at Agora S.A.

In mid-2021, the Group received information about the establishment of the third trade union – Trade Union of the Committee for the Defence of Gazeta Wyborcza at Agora S.A. The risk of a collective dispute announced by the Committee for the Defence of Gazeta Wyborcza is high if the Management Board of Agora S.A. makes any decisions on business activities involving the Press division.

In December 2022, the Intercompany Organisation Independent Self-Governing Trade Union “Solidarity” of AGORA S.A. and INFORADIO SP. Z O.O. (“IO”) included Helios S.A. into its activities.

As required by law, the management boards of companies with trade unions consult or agree upon legally defined decisions with the IO.

The Group endeavours to maintain good relations with its employees and to resolve any issues that have arisen on an ongoing basis. However, the risk of collective disputes cannot be excluded in the cases provided for by law.

▸ Risk related to functioning within tax capital group (TCG)

Operating within a tax capital group imposes an obligation on Agora S.A. to maintain at least 75.0% of shares in subsidiaries comprising the tax capital group for the period of operation of the tax capital group extended for 2024. Taking into account the changes in the market environment and the implementation of the strategy of the Agora Group, it may be necessary to make changes in the ownership structure, which – if the amount of the said shares in any of the companies falls below the threshold of 75.0% – will result in the loss of the tax capital group status with retroactive effect from 1 January 2024. This entails a loss of tax savings, an increase in the costs of closing the tax year and the need to prepare additional transfer pricing documentation. However, the Company assumes that all statutory requirements will be met throughout the duration of the tax capital group.

13. FACTORS AND UNUSUAL EVENTS WHICH HAD INFLUENCE ON THE RESULTS OF BUSINESS ACTIVITIES FOR 2023 WITH THE ESTIMATION OF THEIR INFLUENCE

In the first quarter of 2023, the most significant factor that affected the Agora Group's results of operations not only in the first quarter, but also for the whole of 2023, was the acquisition of a controlling stake in Eurozet. The transaction to acquire another 11% stake in Eurozet Sp. z o.o. results in Agora S.A. recording a higher share of future dividends from 2023.

An impairment charge of PLN 2.1 million on real estate in Tychy was also recorded in 2023. There was also a write-down of cash pooling receivables from Goldenline Sp. z o.o. and a write-down on shares of HRLink Sp. z o.o. as a result of the revaluation of HR Link Sp. z o.o.'s goodwill.

14. LEGAL ACTIONS CONCERNING LIABILITIES OR DEBTS OF THE ISSUER OR ITS SUBSIDIARIES

In 2023, there were no significant legal actions in court, competent authority for arbitration procedures or public institutions related to liabilities or debts Agora S.A. or its subsidiaries.

15. DIVISIONS OF THE COMPANY

As of December 31, 2023, the Company had 8 divisions and the major headquarters in Warsaw. On January 1, 2024, a resolution on liquidation of the divisions of the Company came into force.

16. THE MANAGEMENT BOARD'S STATEMENT OF THE REALIZATION OF FORECASTS

The Management Board did not publish any forecasts of the Company's financial results and because of that this report does not present any Management Board's statement of the realization of them as well as any differences between actual and forecasted financial results.

17. INFORMATION ON PURCHASE OF OWN SHARES

In 2023 the Issuer did not conduct a program of purchasing own shares.

18. ISSUING OF SECURITIES

In 2023 the Company did not issue any securities.

19. OTHER INFORMATION

▸ Impairment of assets

In regulatory filings of January 18, 2023, the Management Board of Agora S.A. announced that the Agora Group ("the Group") is in the process of verifying the valuation of its assets in accordance with the International Financial Reporting Standards, inter alia on the basis of an analysis of long-term financial forecasts for all of the business segments of the Group.

The abovementioned analyses show the necessity to incur impairment loss of assets in the Digital and Printed Press segment. The amount of the abovementioned impairment has an impact on the net results of Agora Group in the fourth quarter of 2022.

The impairment loss of assets concerns the amount of goodwill related to the Digital and Printed Press segment. Its impact on the net result of the Agora Group amounted to PLN 43.4 mio.

The individual value of the remaining impairment losses is not significant from the Company's and the Group's perspective.

All of the above data are preliminary, non-audited estimates and may change during the finalization of work on financial statements for the fiscal year 2022. The additional information will be provided in the financial statements for the fiscal year 2022.

At the same time, the Company informs that the aforementioned impairment loss is one-off and non-cash and does not affect the liquidity of both, the Company and of the Group, or the strategic intentions of Agora S.A.

The reason for the planned group layoffs in the field of Digital and Printed Press are market factors resulting from the steady downward trend in sales of printed press connected with the outflow of readers to other communication channels, whereas the reason for the group layoffs in the field of Internet is a clear deterioration in revenue from advertising sales in the open market model and the rise of global platforms. The Company shall go through these difficult changes in a thought out manner and with care for its employees, offering the dismissed employees statutory severance payments and additional benefit, the amount of which shall be the subject of consultations with the trade unions.

On January 9, 2024 the Management Board of the Company shall request the trade unions operating at the Company and the Company's works council to join in the consultation on collective redundancy process and shall provide the relevant Labor Office with information on the intention to execute group layoffs in the Company.

The Company shall publish a regulatory filing on collective redundancies after the process of consultation with trade unions and works council operating at the Company, as required by the law, is finalized. This regulatory filing shall also include information on the estimated amount of provision related to the restructuring of employment in Agora S.A. which will be fully charged to the result of the Company and of Agora Group in the 1st quarter of 2024. The final data regarding the amount of the provision and the effect of employment restructuring on the financial results of the Company and of Agora Group shall be published in the financial statements of the Company and of Agora Group for the 2nd quarter of 2024.

In the regulatory filing of January 29, 2024, the Company informed about:

(i) concluding on January 29, 2024 an agreement with trade unions operating at the Company (which fulfills the provisions of article 3, Section 1 of the Act of March 13, 2003 on Special Rules for Termination of Employment for Reasons Not Attributable to Employees) and with work council in the Company (which constitutes an agreement in accordance with the Act of April 7, 2006 on informing and consulting employees) ("Agreement"),

(ii) adopting by the Management Board of the Company on January 9, 2024 resolution to execute collective redundancies in the Company, in accordance with the provisions of the Agreement.

The collective redundancies shall be executed from February 12 until March 31, 2024, and shall affect up to 180 employees.

In accordance with the Agreement, the laid-off employees will be provided by the Company with a wider range of supportive measures than required by law. In case the agreement on termination of employment is concluded, the redundancy payment estimated according to law regulations shall be increased by an additional compensation in the amount depending on the seniority at the Company and an additional benefit for persons who, prior to the employment at the Company, were a party to a civil contract with the Company lasting at least one year. The laid-off employees shall be supported by additional protective measures provided by the Company, i.a. help in searching for new job and reskilling, psychological care and basic medical care until the end of 2024. The Company, in accordance with requirements of law, shall submit an appropriate set of information, together with the signed Agreement, to a relevant Labor Office.

4.1.3 Committee and Commission established within the Supervisory Board

There is one Committee and one Commission operating within the Supervisory Board: the Audit Committee, and Human Resources and Remuneration Commission established in compliance with the Company's Statutes, performing advisory role to the Supervisory Board. Competences and procedures of the Audit Committee, and Human Resources and Remuneration Commission were set forth in the by-laws of these bodies adopted by virtue of resolutions of the Supervisory Board. As at the date of submission of this Report, the Committee and Commission are composed of the following members:

(i) Audit Committee:

- Dariusz Formela – Chairperson of the Audit Committee, an independent member of the Supervisory Board with knowledge about the business which the Company operates,
- Tomasz Sielicki – a member of the Supervisory Board,
- Maciej Wisniewski – an independent member of the Supervisory Board with knowledge and skills in the field of accounting acquired in the professional education in the Faculty of Finance and Banking at the Warsaw School of Economics and the Faculty of Finance at London Business School, as well as in the course of current professional activity.

The Audit Committee is responsible for monitoring financial reporting of the Company and the Agora Group, as well as financial audit activities, performing supervisory functions with respect to monitoring of internal control systems, internal audit and risk management, and performing supervisory activities with respect to monitoring the independence of external auditors.

In order to exercise its powers, the Audit Committee may require the Company to provide certain information on accounting, finance, internal audit and risk management that is necessary for the performance of the Audit Committee's activities, and may examine the Company's documents.

The meetings of the Audit Committee are convened when necessary, but at least four times per year. In 2023 the Audit Committee was convened ten times.

Meetings of the Audit Committee are convened by its chairman on his or her own initiative or at the request of a member of the Audit Committee, as well as at the request of the Management Board, internal or external auditor. Meetings of the Audit Committee may also be convened by the Chairman of the Supervisory Board.

The Audit Committee submits to the Supervisory Board its motions, positions and recommendations in time for the Supervisory Board to take appropriate actions, as well as annual and half-yearly reports on its activities in a given financial year and an assessment of the Company's situation in the areas within its competence.

On the basis of a circular resolution of the Supervisory Board No. 14/2022 of September 5, 2022 and in accordance with the provisions of the Company's Statutes, PricewaterhouseCoopers Polska spółka z ograniczoną odpowiedzialnością Audyt sp. k. with its registered seat in Warsaw, at 11 Polna Street (number on the list of entities authorized to audit financial statements: 144) was chosen as the certified auditor of the Company and the Group who will examine the financial statements for 2023, 2024 and 2025. This selection was made in accordance with the "Policy of selecting the audit company to audit financial statements of Agora SA and Agora S.A. Capital Group".

In December 2017, the Supervisory Board of the Company adopted, in the form of a resolution, the “Policy on selection of the audit firm for auditing the financial statements of Agora S.A. and Agora S.A. Capital Group”, which also included provisions concerning the policy for the provision by the audit firm conducting the audit, by entities associated with this audit firm and by a member of the audit firm network of permitted non-audit services, and “Procedure of selection of the audit company in Agora S.A. and the Agora S.A. Capital Group”. The obligation to accept the above-mentioned documents resulted from the Act of 11 May 2017 on statutory auditors, audit firms and on public supervision. As a result of the 2022 revision of the aforementioned documents, the Supervisory Board adopted by circulating resolution No. 17/2022 amendments to the Policy on selection of the audit firm for auditing the financial statements of Agora S.A. and Agora S.A. Capital Group and the Procedure of selection of the audit company in Agora S.A. and the Agora S.A. Capital Group, aimed at adjusting the wording of these documents to the current wording of the Act on Auditors, Audit Firms and Public Supervision. The amendments to the Policy and Procedure also take into account the guidelines of the Office of the Polish Financial Supervision Authority for the event that the audit firm auditing the financial statements of a public interest entity loses its authority or other reasons occur that prevent the audit firm selected by a public interest entity from conducting the audit.

The policy on selection of the audit firm for auditing the financial statements of Agora S.A. and Agora S.A. Capital Group sets out the rules and guidelines for the procedure aimed at selecting an audit firm authorised to conduct statutory audits and reviews of financial statements of Agora S.A. and Agora S.A. Capital Group by the Supervisory Board of the Company following a tender procedure provided for in the Selection Procedure, containing transparent and non-discriminatory selection criteria for the audit firm. The policy also indicates the general responsibilities of the Audit Committee of Agora S.A.'s Supervisory Board related to monitoring the risk of loss of authority by the audit firm examining financial statements of the Company.

Pursuant to the policy for the provision by the audit firm conducting the audit, by entities associated with this audit firm and by a member of the audit firm network of permitted non-audit services together with the catalogue of prohibited services, neither the statutory auditor nor the audit firm conducting statutory audits of the Company nor any member of the network of which the statutory auditor or the audit firm are members shall provide, directly or indirectly to the Company, its parent company or any entities controlled by the Company within the European Union, any prohibited non-audit services or services other than financial auditing activities. Provision of services that are not prohibited by these entities shall be acceptable only to the extent not related to the Company's tax policy, after the Audit Committee has conducted an assessment of risks and independence safeguards, and provided its consent.

The audit firm PricewaterhouseCoopers Polska spółka z ograniczoną odpowiedzialnością Audyt sp. k. with its registered office in Warsaw provided permitted non-audit services to Agora S.A. in the financial year 2023, i.e. services within the scope of review of condensed interim individual financial statements of Agora S.A., covering the period from 1 January 2023 to 30 June 2023, and within the scope of review of condensed interim consolidated financial statements of Agora S.A. Capital Group, covering the period from 1 January 2023 to 30 June 2023.

(ii) Human Resources and Remuneration Commission:

- Maciej Wisniewski - chairperson of the Human Resources and Remuneration Commission,
- Tomasz Karusewicz,
- Andrzej Szlezak.

In accordance with the Bylaws of the Human Resources and Remuneration Commission, responsibilities of the Commission include periodic assessment of the principles of remuneration of the Management Board members and providing the Supervisory Board with appropriate recommendations in this respect, making recommendations regarding the amount of remuneration and granting additional benefits to individual members of the Management Board for consideration by the Supervisory Board.

When submitting the above recommendations to the Supervisory Board, the Commission should specify all forms of remuneration, in particular the fixed remuneration, the performance-based remuneration system and severance pay. Additionally, the Committee's competencies include advising the Supervisory Board on the selection criteria and the procedures for appointing Management Board members in cases provided for in the Company's Statutes, advising the Supervisory Board on the procedures to ensure proper succession of Management Board members in cases provided for in the Company's Statutes.

Meetings of the Commission are convened by its Chairperson on his or her own initiative or at the request of a member of the Commission, Supervisory Board or of the President of the Company's Management Board. Meetings of the Commission may also be convened by the Chairman of the Supervisory Board.

4.2. RULES GOVERNING APPOINTMENT AND DISMISSAL OF THE COMPANY'S MANAGEMENT PERSONNEL; POWERS OF THE MANAGEMENT PERSONNEL, INCLUDING IN PARTICULAR THE AUTHORITY TO RESOLVE TO BUY BACK OR ISSUE SHARES

4.2.1 Appointment

In accordance with § 28 of the Statutes, the Management Board is appointed by the General Meeting, except for the appointment of additional members of the Management Board by way of co-optation.

Subject to situations where additional members of the Management Board are co-opted, the Management Board is composed of 3–6 members with the exact number of members determined by the shareholders holding the majority of preferred series A shares, and following the expiration of such preferred status of all series A shares, by the Supervisory Board.

During the term of its office, the Management Board may appoint by co-optation not more than two additional members; the co-optation of additional members is effected by a resolution of the Management Board. In case a member of the Board is appointed by way of co-optation, the Management Board is obliged to include in the agenda of the nearest General Meeting an item concerning confirmation of appointment of a new member of the Board by way of co-optation and propose an appropriate draft resolution. Should the General Meeting not approve the appointment of the new member of the Management Board by way of co-optation, such Management Board member's mandate expires on conclusion of that General Meeting.

In accordance with the Statutes, the majority of members of the Management Board must be Polish citizens residing in Poland.

In accordance with § 30 of Agora S.A.'s Statutes, candidates for the Management Board members may be nominated exclusively by shareholders holding preferred series A shares, and following the expiry of the preferred status of all such shares, by the Supervisory Board.

In the event that the persons authorized to determine the number of members of the Management Board and to nominate candidates for such members do not exercise one or both of the above rights, the number of members of the Management Board may be determined by the General Meeting, while each shareholder during such General Meeting may nominate candidates for such members.

4.2.2. Dismissal

In accordance with § 31 of the Statutes, individual or all members of the Management Board may be dismissed (removed), due to important reasons, prior to the end of their term of office on the basis of a resolution of the General Meeting adopted by a simple majority of votes, provided that until the expiry of the preferred status of series A shares 80% of voting rights attached to all outstanding series A shares are cast in favour of such resolution. A resolution on dismissal (removal) of Management Board members should state the reasons for which such dismissal is made.

Members of the Management Board appointed by way of co-optation may be dismissed in the manner provided for above, or by a resolution of the Management Board; however, the persons concerned may not vote on this matter.

In the event that some members of the Management Board are dismissed or their mandate expires during the term of office for other reasons, supplementary elections shall be held only at such time as when the number of members of the Management Board performing their functions is less than three or when the requirement that the majority of members of the Management Board must be Polish citizens residing in Poland is no longer met.

If the number of members of the Management Board is lower than that required in the preceding paragraph, the Management Board will be required to immediately convene an extraordinary General Meeting in order to hold

supplementary elections. Supplementary elections may take place also during the ordinary General Meeting if, in accordance with the provisions of law, such meeting must be convened within a short period of time, while convening an extraordinary General Meeting would not be appropriate in such case. In the event of supplementary elections, provisions regarding the election of members of the Management Board for their full term of office apply.

In accordance with § 33(1) of the Statutes, members of the Management Board may elect the chairman or persons performing other functions among themselves.

4.2.3 Powers of the management personnel

In accordance with § 27 of the Company's Statutes, the Management Board of the Company manages its affairs and represents the Company in dealings with third parties.

Responsibilities of the Management Board include all matters related to conducting the Company's affairs not reserved for other governing bodies of the Company.

The authority to resolve to buy back or issue shares remains with the General Meeting of the Company.

5. COMPANY'S INTERNAL CONTROL AND RISK MANAGEMENT SYSTEMS USED IN THE PROCESS OF PREPARATION OF FINANCIAL STATEMENTS AND CONSOLIDATED FINANCIAL STATEMENTS

Management Boards of the Group companies are responsible for the internal control systems in individual companies and their efficiency in the process of preparing financial statements and periodic reports developed and published in accordance with the Regulation of the Minister of Finance of 29 March 2018 on current and periodic information to be published by issuers of securities and conditions for recognition as equivalent of information whose disclosure is required under the laws of a non-member state.

The Chief Financial Officer of the parent company or chief financial officer/management board of respective company, as appropriate, supervises the process of preparing the financial statements and periodic reports in individual Group companies from the subject-matter point of view. The process of drawing up annual and interim financial statements is coordinated by the Reporting Department of the Finance and Administration Division, as well as financial and accounting departments of individual Group companies. The Company constantly monitors changes to the applicable stock market reporting laws and regulations, and makes preparations sufficiently in advance to incorporate them into its rules and policies.

Each month, following the closing of the books, the members of the Management Board of the Parent Company and the management staff of the Group receive management information reports, including analyses of key financial data and operating ratios of the business segments. On a monthly basis, meetings of the Management Board with management staff are also organized to discuss the Company's and the Group's performance by segment and division.

All financial data contained in the separate and consolidated financial statements and periodic reports are sourced from the financial and accounting systems, where all business events are recorded in accordance with the Company's and the Group's accounting policies (approved by the Management Board), based on the International Accounting Standards and the International Financial Reporting Standards. The Company has been preparing financial statements in accordance with International Financial Reporting Standards (formerly: International Accounting Standards) since 1992.

The consolidated and separate financial statements of the Company and the Group are submitted to the member of the Management Board supervising the Finance and Administration department and the Chief Financial Officer for preliminary verification and then to the Management Board for final verification. Prior to their publication, consolidated and separate financial statements are also submitted to members of the Audit Committee.

Meetings of the Supervisory Board are held at least once a quarter, during which, depending on the questions submitted by members of the Supervisory Board, the Management Board provides information on key financial data and operating ratios of business segments.

Consolidated and separate annual and semi-annual financial statements are subject to, respectively, independent audit and review by the Company's statutory auditor. The results of the audit and review are presented by the statutory auditor to the member of the Management Board supervising the Finance and Administration department, the management of the financial division (including the Chief Financial Officer) and published in the auditor's report.

Conclusions from the audit and review of the consolidated and separate financial statements are presented to the Audit Committee. Representatives of the Audit Committee analyze the results of the audit and review at closed meetings with the Company's auditor, also without the participation of the Company's Management Board.

In addition, the statutory auditor also provides the Audit Committee with recommendations concerning improvements of the internal control system in the Company and the Group, which were identified during the audit of the financial statements.

Additionally, the Company has an Internal Audit Department, whose main task is to identify risks and weaknesses of internal control. At its meetings, the Audit Committee discusses the results of the Internal Audit work with its director, also without the participation of the Company's Management Board.

The recommendations received from the statutory auditor and Internal Audit are discussed by the Audit Committee with the Company's Management Board.

Additionally, at Agora S.A. there is a Compliance team whose main task is to ensure the compliance of Agora's operations with internal regulations and legal provisions. The Compliance Officer discusses the results of his work at the Audit Committee meetings.

Remuneration of persons responsible for the Internal Audit and Compliance Department depends on the performance of assigned tasks, and not on the short-term results of the Company. The persons responsible for the Internal Audit Department and Compliance team report directly to the president and another member of the management board. The head of internal audit reports organisationally to the President of the Management Board, and functionally to the chairman of the audit committee. In 2021, also at Helios S.A. Compliance Officer was appointed.

The company plans to implement the principle of having the internal audit function reviewed by an independent auditor selected with the participation of the audit committee.

All draft resolutions submitted by the Company to the agenda of the General Meeting are previously reviewed by the Supervisory Board.

In the case of issuing shares with pre-emptive rights, the Company will comply with the relevant rules set out in the DSPN 2021 document.

Agora S.A. has always strived to pay dividends to shareholders. To this end, the Company adopted a dividend policy back in 2005. However, due to the loss incurred in 2022, the Management Board has recommended the General Meeting to cover the loss from the supplementary capital and not to pay the dividend for the year 2022.

6.1. OPERATION AND KEY POWERS OF THE GENERAL MEETING, SHAREHOLDERS' RIGHTS AND THE MANNER OF THEIR EXERCISE

The General Meeting of Agora ("GM") acts on the basis of the Commercial Companies Code and Agora's Statutes. Pursuant to Section 16(2) of the Statutes, the GM may adopt the Rules of the General Meeting, setting out the rules of its operation. The adoption, amendment or revocation of the Rules require three-quarters of the votes cast to be valid. The Rules of the GM is available at URL: <https://www.agora.pl/media/Dokumenty/By-laws%20of%20the%20General%20Meeting%20of%20the%20Shareholders%20of%20Agora%20SA.pdf>. The GM is convened in accordance with the provisions of the Code of Commercial Companies.

Resolutions of the General Meeting are passed by an absolute majority of the votes cast unless the Code of Commercial Companies or the Statutes provide otherwise. Pursuant to § 15(2) of the Statutes, resolutions concerning a merger of the Company with another entity, other forms of consolidation that are or will be allowed under law, division of the Company, remuneration of members of the Supervisory Board, including individual remuneration of those members who were elected to a continuous supervisory, are adopted by a majority of three-quarters of votes cast. In the event a motion for such removal is submitted by the Company's Management Board, an absolute majority of votes cast is required in order to adopt such a resolution. Acquisition or disposal of real property, a perpetual usufruct right or interest in real property does not require the GM's resolution.

For the purposes of calculating a shareholder's share in the overall number of votes at the general meeting referred to above, it is assumed that the restriction of the voting rights (up to 20%) does not exist.

Pursuant to § 17(5) of the Statutes, at any General Meeting the percentage of votes of foreign entities and entities controlled by foreign entities may not be greater than 49%. The limitation does not apply to entities with their seats or residence in a Member State of the European Economic Area.

Pursuant to § 7(1) of the Statutes, in addition to registered series A shares, the Company's share capital comprises also ordinary, both registered and bearer, BiD series shares. Series A registered shares are preferred in such a way that each of them carries five votes at the general meeting, subject to the above reservations.

Dismissal (removal) of a member of the Supervisory Board prior to the end of the common term of office of the Supervisory Board may be effected by a resolution of the general meeting adopted by a simple majority of votes, provided that until the expiry of the preferred status of series A shares 80% of voting rights attached to all outstanding series A shares are cast in favour of such resolution.

Another preference carried by series A shares includes the right to dismiss members of the Management or Supervisory Board prior to the end of their term of office. The dismissal can be made on the basis of the resolution adopted by the General Meeting. For the dismissal, a simple majority of votes is required, provided that until the expiry of the preferred status of series A shares 80% of voting rights attached to all outstanding series A shares are cast in favour of such resolution.

The Statutes of Agora S.A. provide that none of the shareholders may exercise more than 20% of the overall number of votes at the General Meeting, provided that for the purposes of establishing obligations of purchasers of material blocks of shares as provided in the Act on Public Trading in Securities such restriction of the voting rights does not exist. This restriction of the voting rights does not apply to shareholders holding the preferred series A shares.

Each share, whether preferred or not, entitles its holder to one vote in connection with passing a resolution regarding the withdrawal of the Company's shares from public trading.

6.4. RESTRICTIONS ON TRANSFER OF OWNERSHIP RIGHTS TO THE ISSUER'S SECURITIES

Pursuant to the Statutes of Agora S.A., the sale or conversion of preferred series A shares into bearer shares requires the written consent of shareholders holding at least 50% of the preferred series A shares registered in the share register on the date of filing the request for such consent. The procedure for requesting and granting such consent is laid down in the Statutes. In addition, the sale of series A preferred shares may be made only at a price not higher than their nominal value.

6.5. LIMITATIONS ON THE EXERCISE OF VOTING RIGHTS

According to the Company's Statutes, none of the shareholders may exercise more than 20% of the overall number of votes at the General Meeting. For the purposes of establishing obligations of purchasers of material blocks of shares as provided in the Act on Public Offering such restriction of the voting rights does not exist. The restriction of the voting rights referred to in the preceding sentence does not apply to:

a) shareholders holding the preferred series A shares;

b) a shareholder who, while having no more than 20% of the overall number of votes at the General Meeting, announced, in accordance with the Act on Public Offering, a tender for subscription for the sale or exchange of all the shares of the Company and in result of such tender purchased shares which, including the previously held Company shares, authorize the said shareholder to exercise at least 75% of the overall number of votes at the General Meeting. For the purposes of calculating a shareholder's share in the overall number of votes at the general meeting referred to above, it is assumed that the restriction on the voting rights provided for in § 17(1) of the Company's Statutes does not exist.

For the purposes of the aforementioned limitation on the voting rights and exception from the limitation provided for in item b), exercise of votes by a subsidiary is treated as the exercise of votes by a parent company as defined in the Act on Public Offering.

At any General Meeting, the percentage of votes of foreign entities and entities controlled by foreign entities may not be greater than 49%. The limitation does not apply to entities with their seats or residence in a Member State of the European Economic Area.

Each share, whether preferred or not, entitles its holder to one vote in connection with passing a resolution regarding the withdrawal of the Company's shares from public trading.

7. PRINCIPLES TO PREVENT CONFLICT OF INTEREST

Agora S.A. and its group companies have clear rules for transactions with related parties.

Members of the Company's governing bodies avoid engaging in professional or non-professional activity that could lead to a conflict of interest or adversely affect their reputation as a member of the Company's governing body. In the event of a potential conflict of interest, members of the Management Board and Supervisory Board report the occurrence of such a situation and do not participate in meetings during the consideration of such an event.

Members of the Management Board and Supervisory Board, in the event that the decision taken is contrary to the interest of the Company, should request that a separate opinion on this matter be included in the minutes of the Management Board or Supervisory Board meeting. Such an event did not take place in the Company.

All shareholders are equal in relation to the others in terms of transactions with related entities. This also applies to transactions of the Company's shareholders concluded with entities belonging to its Group. The report of transactions with related entities is presented to the Supervisory Board of the Company by the Compliance Officer on a quarterly basis. If the transaction of the Company with a related entity requires the consent of the Supervisory Board of the Company, the Supervisory Board, before adopting a resolution on this matter, assesses whether there is a need to first consult an external entity that will carry out the valuation of the transaction and analyze its economic effects.

The company has not been buying its own shares for many years, in the event of a decision to carry out such a process, Agora will act in accordance with rule 5.4 of the DSPN 2021 collection.

8. REMUNERATION POLICY

The principles of determining remuneration of the Company's employees, except for members of the Management Board and Supervisory Board, are established in accordance with internal remuneration regulations. In 2020, Agora's General Meeting adopted the Remuneration Policy for members of the Management and Supervisory Boards. In 2023, the Supervisory Board presented a report on the implementation of this policy for the year 2022.

The Company's remuneration policy directly supports the implementation of the Agora Group's medium-term growth plans.

The Company's remuneration system is based on fixed remuneration and variable remuneration resulting from incentive plans and bonuses depending on the achievement of the set goals.

The Agora Group's remuneration policy differentiates the level of remuneration according to the position held, performance and competences. This variable part ensures flexibility and adaptability to the employer's needs.

Through the incentive scheme, the objectives closely linked to the Agora Group's medium-term growth plan are forwarded to the managers and to employees, which ensures effective support for Agora's business ventures.

The incentive-based remuneration system for employees and managers consists of a fixed part (base salary), a variable part (including annual bonuses and discretionary awards) and non-wage benefits. Base salary in the Company and Agora Group companies is related to the employee's potential, competence and performance in achieving his or her goals.

The aim of the system is to motivate employees to achieve high performance in their work through the implementation of individual goals and evaluation of attitudes, while the management staff can use it as a tool to motivate employees. The bonus system provides for an annual assessment of the employee's performance, summarising the employee's overall contribution for a given bonus year, indicating areas of strengths and areas that require further development. The annual assessment includes an assessment of the level of accomplishment of individual objectives and attitudes throughout the year, as well as an assessment of the total employee's work in a given year.

Agora also provides employees with non-wage benefits such as co-financing of medical care, sport card and benefit system available on a dedicated platform. Employees can also take advantage of the Company's Social Benefits Fund where they can benefit from employee loans for, inter alia, housing purposes. The Company also has a Loan and Benefit Fund.

The company submitted a new remuneration policy for the Management Board and the Supervisory Board in accordance with the requirements set out in the Act of 16 October 2019 amending the Act on public offering and conditions for introducing financial instruments to an organized trading system and on public companies and certain other acts to the Annual General Meeting, which took place on 25 June 2020.

The remuneration policy adopted by the General Meeting for members of the Management Board and Supervisory Board of Agora S.A. complies with the requirements of the Act and the Company's Articles of Association. Its full content is available on the corporate website of the Company. The company presented report on the application of this policy to the General Meeting in June 2023 for the year 2022. In June 2024, the Company will present the report for 2023.

The remuneration system for members of the Management Board of Agora operates on the basis of three elements:

- a fixed part (base salary),
- a variable part (incentive system and bonus depending on the achievement of the set goals) and
- non-wage benefits, the range of which is determined by the Supervisory Board.

- on which the right of the shareholders holding series A shares to nominate candidates to the Management Board is removed from the Company's Statutes,
- on which one entity or a group of entities acting in concert exceeds the 50.0% threshold of the total number of votes at the General Meeting of Agora S.A.;
- on which the Supervisory Board of the Company is appointed by voting by separate groups, pursuant to Article 385 § 3-9 of the Code of Commercial Companies, should any of these contracts be terminated by the Company, the member of the Management Board of Agora S.A. will receive severance pay in the amount equal to the sum of the following components:
 - (i) the amount equivalent to 12 times the monthly base salary payable to the member of the Management Board of Agora S.A. for the month preceding the month in which the member of the Management Board of Agora S.A. receives the termination notice;
 - (ii) the amount equivalent to the annual bonus for the financial year preceding the year of termination of the employment contract.

The severance pay referred to in the preceding sentence is not due when the employment contract is terminated for reasons indicated in Article 52 § 1 of the Labour Code.

Rules for determining the value of the Incentive Plan

The Management Board members of the Company participate in an incentive program ("Incentive Plan"), within which one of the components (related to the Company's share price increase) is accounted for as a cash-settled share-based payment. According to the Incentive Plan Management Board members are eligible to receive a variable part of the remuneration based on two components described below:

- (i) the stage of realisation of the target based on the EBITDA of the Agora Group ("the EBITDA target"). The amount of a potential bonus in this component of the Incentive Plan depends on the stage of the EBITDA target fulfilment, which is specified as the EBITDA level (i.e. EBIT plus depreciation, amortization and impairment losses on assets) of the Agora Group to be reached in the given financial year determined by the Supervisory Board. The fulfilment of the EBITDA target will be determined on the basis of the audited consolidated financial statements of the Agora Group for the given financial year;
- (ii) the percentage of Company's share price increase ("the Target of Share Price Increase"). The amount of a potential bonus in this component of the Incentive Plan will depend on the percentage of Company's share price increase in the future. The share price increase will be calculated as a difference between the average of the quoted closing Company's share prices in the first quarter of the financial year commencing after the financial year for which the bonus is calculated ("the Average Share Price in IQ of Next Year") and the average of the quoted closing Company's share prices in the first quarter of the financial year for which the bonus is

calculated (“the Average Share Price in IQ of Bonus Year”). If the Average Share Price in IQ of Next Year will be lower than the Average Share Price in IQ of Bonus Year, the Target of Share Price Increase is not satisfied and the bonus in this component of the Incentive Plan will not be granted, however, the Supervisory Board retains a right to the final verification of the Target of Share Price Increase by reference to the dynamics of changes in stock exchange indexes on capital markets.

The variable part of the remuneration depends also on the fulfilment of a non-market condition, which is the continuation of holding the post of the Management Board member within the period, for which this part of the remuneration is calculated.

The rules, goals, adjustments and conditions for the Incentive Plan fulfilment for the Management Board members are specified in the Supervisory Board resolution.

As at 31 December 2023, the value of the provision for the EBITDA reward was estimated on the basis of the best estimate of the expected value of achieving the EBITDA target in 2023, which was charged to the Income Statement in proportion of the time that elapsed till the balance sheet date. As at 31 December 2022, the Company did not include a reserve for potential reward from the fulfilment of the EBITDA target in 2022 due to the failure to reach the EBITDA result to pay the incentive plan element.

The value of the potential reward concerning the realization of the Target of Share Price Increase, was estimated on the basis of the Binomial Option Price Model (Cox, Ross, Rubinstein model), which takes into account – inter alia – actual share price of the Company (as at the balance sheet date of the current financial statements) and volatility of the share price of Company during the last 12 months preceding the balance sheet date. That value is charged to the Income Statement in proportion to the vesting period of this component of the Incentive Plan. As at 31 December 2023, the estimated Average Share Price in IQ of Next Year was higher than the Target of Share Price Increase thus the provision for this component of Incentive Plan was recognised in the balance sheet.

As at 31 December 2022, the estimated Average Share Price in IQ of Next Year was below the Target of Share Price Increase and the accrual for this component of the Incentive Plan was not recognised in the balance sheet.

The basic parameters of the Binomial Option Price Model used for calculation of the fair value of the potential reward from the realization of the Target of Share Price Increase are described below:

the share price of Agora S.A. as at the current balance sheet date	PLN	11.40
volatility of the share price of Agora S.A. during the last twelve months	%	34.17
the Average Share Price in IQ of Bonus Year	PLN	5.63

9. DIVERSITY POLICY

With respect to the recommendation concerning comprehensiveness and diversity, as well as a balanced proportion of women and men in the company's governing bodies, the Management Board of the Company points out that it has no influence on the composition of the Company's governing bodies. Nevertheless, the Company's Management Board, in the event of changes in the composition of the Company's key bodies, presents to the entities entitled to nominate candidates to these bodies the requirements they should meet in accordance with the Best Practices and other legal regulations. Candidates for members of the Supervisory Board may be nominated by shareholders holding Series A preferred shares or shareholders who, at the last general meeting prior to the nomination of candidates, have documented the right to not less than 5.0% of the votes and hold, at the time of making the nomination, not less than 5.0% of the Company's share capital (§21(1)(a) of the Statutes).

In accordance with §30 of Agora S.A.'s Statutes, candidates for members of the Management Board may only be nominated by shareholders holding series A preferred shares and, after the expiry of the privileges with respect to all such shares, by the Supervisory Board. In the event that the persons authorised to determine the number of members of the Management Board and to propose candidates for members of the Management Board do not exercise one or both of these rights, then the right that has not been exercised will be vested, respectively: for determining the number of members of the Management Board - to the General Meeting and, for nominating candidates - to each shareholder at the General Meeting.

In 2022, acting on the basis of point. 2.1 of the "Code of Best Practice for WSE Listed Companies 2021" (Resolution No. 13/1834/2021 of the Supervisory Board of the Warsaw Stock Exchange of 29 March 2021), the General Meeting adopted the "Diversity Policy of Agora S.A. with respect to the members of the Management Board and the Supervisory Board".

Moreover, the Management Board of the Company would like to emphasise that, in accordance with the 2022 adopted "Diversity Policy of Agora S.A. with respect to the members of the Management Board and the Supervisory Board", criteria such as knowledge, experience and skills necessary to perform a given function are decisive in the Company when selecting candidates for all positions that fall within the competence of the Management Board. The application of these principles to all employees of the Company and the Group ensures the healthy functioning of the organisation and the acceptance of new business challenges.

Diversity and openness are values that are an integral part of both the Company's business activities and its employment policy. Therefore, Agora S.A. as an employer is guided by the principles of equal treatment and counteracts all forms of discrimination, believing that this brings real benefits and supports the Company's development and innovation. One of the objectives of the diversity policy implemented at Agora is to emphasise the organisation's openness to diversity, which increases work efficiency, builds trust and counteracts discrimination. The diversity practice is also aims to fully utilise the potential of employees, their diverse skills, experiences and talents in an atmosphere of respect, support and teamwork.

As an employer, Agora creates a working atmosphere in which employees feel respected and nominated to realise their full professional potential. Agora also creates a culture of dialogue, openness, tolerance and teamwork.

In 2016, the "Agora Group Diversity Policy" was introduced at Agora S.A., which applies to all employees. Its aim is to consistently create a workplace free of discrimination regardless of reasons, while at the same time employing the best professionals who contribute to the company's success. Agora is an employer that nurtures team development through internal and external training. Agora S.A.'s diversity policy assumes breaking down barriers such as age,

gender or health status and is guided by the principle that employees' professional potential results from their competences. In this way, the Company wants to support the implementation of its growth strategy in the best possible way and to offer the highest quality products and services to its customers.

Supervisory Board

The procedure for the appointment of Supervisory Board members is set forth in the Company's Statutes, other applicable laws and other regulations applicable to the Company. Agora has limited influence in shaping the composition of the body overseeing its activities, but nevertheless each time it indicates to the entities authorized to nominate candidates to this body all the requirements and recommendations they should meet. Despite this, the current six-member composition of the Supervisory Board in 2023 reflected most of the criteria underlying the diversity policy. The exception was the issue of 30.0% female representation on the body.

Management Board

The procedure for the appointment of the Management Board is also specified in the Company's Statutes. Only holders of series A shares have the right to nominate candidates for the Management Board. In the Company's opinion, the candidates submitted by them took into account as a decisive criterion, first and foremost, high qualifications, professional experience in the main areas of the Agora Group's operations and substantive preparation for the function of a member of the Management Board.

The members of the Company's Management Board have complementary experience and competencies - they are graduates of: Warsaw School of Economics, Adam Mickiewicz University in Poznań, University of Silesia, University of Lodz, University of Edinburgh, French Institute of Management, Harvard Business School (supplementary courses) or Warsaw University of Technology Business School.

As at 31 December 2023, the composition of Agora S.A.'s Management Board did not fulfil the postulate of at least 30% minority in terms of gender in the structure of the body.

Administrative bodies

Administrative bodies in the Agora Group comprise employees holding managerial positions. The diversity policy with regard to administrative bodies is to create a workplace free of discrimination on the basis of gender, age, origin, health, education, political or religious beliefs and any other aspect, where competence and experience are the basis of the organisational culture. The implementation of this approach can be seen in the diversity of teams across the Group. One of the key diversity aspects due to the similar number of male and female employees (in the Agora Group as a whole, as at 31 December 2023, women represented 56.5% of the team, while men represented 43.5%) is gender equality. The gender structure in the administrative bodies indicates that this objective is being achieved.

The Agora Group has a "Policy on social and sponsorship activities" adopted by the Agora Management Board in 2016 as an expression of the strategic approach to corporate social responsibility. The objectives set out in the document are:

- promotion of culture and universal access to it;
- promotion of health and a healthy lifestyle;
- care for the environment;
- caring for others through charitable and relief work.

These refer to specific UN Sustainable Development Goals (Goals 5,10,12,13,16) and the ISO 26000 social responsibility standard.

The social-sponsoring activities of the Agora Group are an expression of its social responsibility and concern for the fate of the regions in which the Group operates as places worth living, working and making plans for. These activities are also aimed at building a positive image of the Group and its brands as entities friendly to people and involved in the life of the community. Detailed information on the activities undertaken by the Agora Group in the area of corporate social responsibility, including pro-environmental activities, in 2023 can be found on the company's corporate website agora.pl/news/esg

Social activities, apart from the activities of the Agora Group's brands and media, are also carried out by foundations established by the Management Board of Agora S.A. and by other Group companies. At the end of 2023, there were 6 such organisations: Agora Foundation, Gazeta Wyborcza Foundation, Wysokie Obcasy Foundation, "Integration Academy Foundation - Work, Education, Sport" of AMS, TOK FM Foundation and Radio ZET Foundation. A detailed description of the foundations' activities can be found in the "ESG Report for 2023. Agora Group and Agora S.A."

The implemented "Policy on social and sponsorship activities" brought measurable benefits to Agora: it strengthened its position as a leader among media in the implementation of social and pro-environmental projects, as well as the involvement and satisfaction of employees due to their participation in the undertaken activities.

Donations granted by the Agora Group for social purposes in 2023 amounted to over PLN 1.2 million. In the reported period, no expenses were incurred for sponsorship activities.

In Agora's opinion, the implementation of the "Policy on social and sponsorship activities" is in line with the interests of the company and its stakeholders, including shareholders, as it creates goodwill, contributes to social development and is an expression of the Agora Group's responsibility for its impact on the environment.
